## Contemporary, Elegant, Stylish

### Contemporary

If you are looking for a roof that will amaze, standing seam may be the ticket. Popular for its use on historical buildings such as the Monticello, standing seam has come into its own as a premium roofing system, offering a fresh vibrant look.

### Elegant

With its sleek lines and hidden fastener design, Image-II standing seam offers elegance without sacrifice.

### Stylish

For timeless style, consider a roof that has never lost its appeal. Standing seam is a roof system that will have your neighbors looking, while enduring for generations.

Some styles fade in and out, but simple beauty never loses its appeal.

### Advanced Protective Coatings

Our Standing Seam is protected by baked on enamel paint: tough for installation, resistant to fading, and Energy Star® reflectivity to save on utility bills.

**Paint:** Durable baked on paint offers a permanent finish, easily lasting 40+ years. This ensures protection and beauty for years to come.

**Galvalume:** Under the paint, Galvalume (55% zinc, 45% aluminum) provides lasting corrosion protection, even if paint is scratched during installation.

**Steel:** A heart of high-tensile steel guarantees strength and endurance. With the highest ratings possible for wind, hail, and fire, Image-II is ready to weather anything nature throws its way.
